## COMPETITIVE OPEN SOURCE EDUCATION

What is Compose Community?

COMPOSE(Competitive Open Source Education) is a learning community of college students where we explore new domains and learn new skills.

MISSION

We thrive to network with aspiring coders of India. We aspire to grow together by learning new skills, exploring various domains, and discovering a new way of learning.
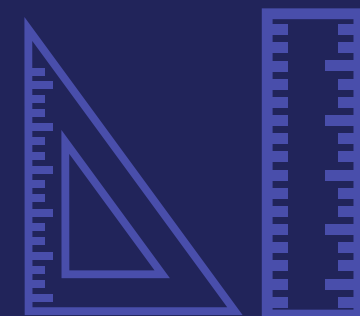

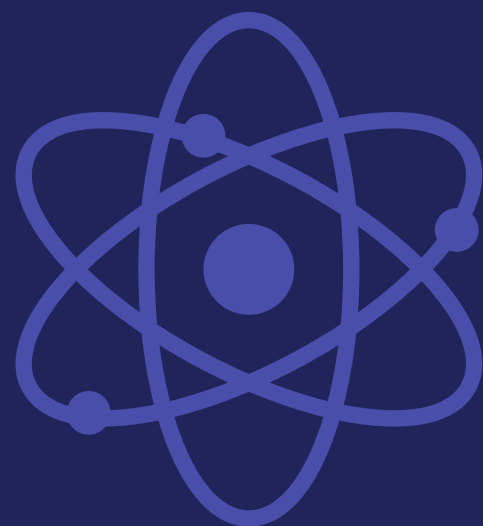

VISION

We have three pillars of our community - Learn, Explore and Contribute.

We encourage beginners to learn, gain expertise and contribute back to the community.

We will give back to the community by teaching aspiring coders and developers and making them adept at facing new challenges in the world of technology.
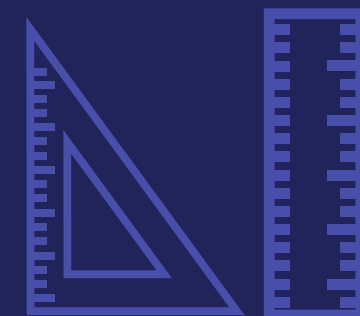

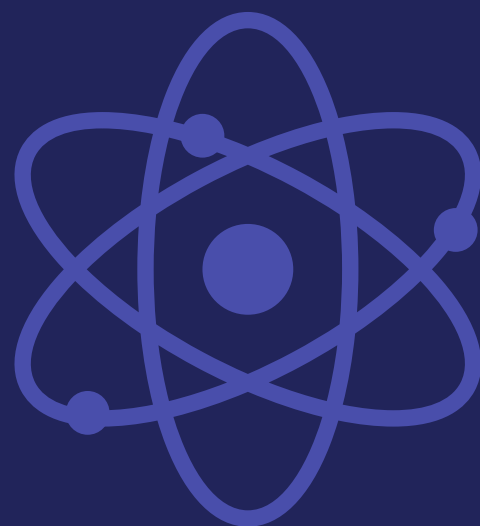

Last but not least, we will grow together.

Why COMPOSE ?

We provide quality education and doubt solving for free that most of the online educational platforms miss out on.

How To Contribute ?

- Share resources and opportunities that will benefit all the community members.
- Create awareness about upcoming hackathons and competitive coding contests.
- Update the members about various trending technologies.
- Ask queries and clear doubts of fellow community members.
- Come together, build awesome projects and contribute to Open Source

P.S. - Our Error Is Compiling 😵
